

N = 500

Uniform: Average = 14.874, C.V. = 0.193589

Discrete: Average = 14.45, C.V. = 0.321562

Exponential: Average = 15.3657, C.V. = 1.01773

Hyper-Exponential: Average = 15.7856, C.V. = 1.13674

Hypo-Exponential: Average = 15.1206, C.V. = 0.782378

Hyper-Erlang: Average = 15.5587, C.V. = 1.66261

Disclaimer: since random numbers are involved
your results will be different.
However, they should look similar.

N = 500000

(not requested, but just to have an idea of the figure they should tend to)

Uniform: Average = 15.0013, C.V. = 0.192239

Discrete: Average = 14.003, C.V. = 0.350058

Exponential: Average = 14.9994, C.V. = 1.00175

Hyper-Exponential: Average = 15.0196, C.V. = 1.10566

Hypo-Exponential: Average = 15.0148, C.V. = 0.745388

Hyper-Erlang: Average = 15.0069, C.V. = 1.37789
